technologies.

Profile

A self-taught and highly motivated Full-Stack Developer and UI/UX Designer, specializing in modern web and mobile development. Passionate about building scalable, performant applications with clean, maintainable code—always eager to learn and adapt to new technologies.

Technical Expertise:

- Frontend: Next.js, TypeScript, React.js, Tailwind CSS, Redux Toolkit (RTK), React Query, Zustand, Auth.js
- Backend/Database: Supabase, MySQL, Prisma, PHP, phpMyAdmin
- Mobile Development: React Native (Expo)
- UI/UX Design: Figma (wireframing, prototyping, design systems)
- Version Control & Collaboration: Git, GitHub
- Additional Skills: Bootstrap, HTML/CSS, Java

Employment History

Full Stack Developer, JVL Electronics

May 2025 — August 2025

Freelance project for an e-commerce website selling Korean car parts.

Frontend Developer, ROC.PH Digital Marketing Services

June 2024 — July 2024

Spent my college internship mostly working on web designs using Figma, and working on the company side-project to build an appointment web application system and integrate appointments to google calendar for both the client and our company CEO to google calendar for scheduled and notified events.

Education

Bachelor of Science in Computer Science, Emilio Aguinaldo College, City of Dasmariñas

August 2021 — July 2025
